OBJECTIVE

Recently completed a Bachelor of Engineering (B.E.) in Computer Engineering with practical experience in **Software Testing, ERP Software Testing, Full-Stack Web Development, and Data Analysis**. Currently working on ERP software at Kranti Forging, where I am involved in **manual testing, functional testing, identifying and reporting defects, verifying business workflows, and maintaining the software** to ensure smooth and reliable operations.

Alongside this, I work as a **freelance full-stack web developer**, building responsive websites and web applications with **React, Next.js, Node.js, and PostgreSQL**, and using **AI tools** to plan, build, and test faster. I use **Excel and SQL** for data analysis and validation, test every delivery on real phones and browsers before launch, and am exploring **Automation Testing**. I am detail-oriented, proactive, eager to keep learning, and open to full-time roles in **QA and web development**.

EDUCATION

Bachelor of Engineering – Computer Engineering	CGPA: 7.93 / 10.00
Gujarat Technological University (2022 – 2026)	
Class XII – Science	Grade: C1 Score: 55.50%
Pramukh Swami Vidyalaya, Salangpur (2021 – 2022)	
Class X	Grade: B2 Score: 65.83%
Pramukh Swami Vidyalaya, Salangpur (2019 – 2020)	

PROJECTS

QuickBite – Online Food Ordering Web Application
- Developed a responsive food ordering application using HTML5, CSS3, JavaScript, and MySQL with restaurant browsing, cart, checkout, and order tracking features. - Performed functional, UI, responsive, and regression testing, created test cases, and identified application defects. - Validated database data using MySQL queries and re-tested every bug fix to ensure reliable application functionality.
E-commerce Website
- Developed a responsive e-commerce website using HTML, CSS, JavaScript, and MySQL, enabling users to browse products and shop online efficiently. - Implemented product categories, search functionality, shopping cart management, and order processing to enhance the user experience. - Highlighted features: responsive design, product filtering, secure database integration, and user-friendly navigation.
Personal Portfolio Website
- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase skills, projects, education, and contact details. - Created multiple sections including About Me, Projects, Skills, Resume, and Contact with easy navigation and mobile-friendly design. - Integrated GitHub, LinkedIn, and resume download links; the current version (umangsutariya.netlify.app) adds Services and Experience pages and a detailed page for each project.

TECHNICAL SKILLS

Frontend	: HTML5, CSS3, JavaScript (ES6+), React, Next.js, Tailwind CSS, Responsive Design
Backend	: Node.js, Express.js, REST APIs, Authentication (JWT), Python (Basic)
Databases	: PostgreSQL, MySQL, Oracle Database, SQL Queries & Data Validation
Testing	: Manual & Functional Testing, Regression Testing, UI & Responsive Testing, Test Case Design, Defect Tracking (Jira), ERP Software Testing, Automation Testing (Learning)
AI & Automation	: AI-Assisted Coding (ChatGPT & Claude), Prompt Engineering, AI Chatbot Integration, OpenAI & Claude API Integration, AI Content Generation, Workflow Automation
Tools & Cloud	: Git & GitHub, VS Code, IntelliJ IDEA, Jira, Excel, Vercel, Netlify, Railway, Linux (Basic), AWS (Basic)

EXPERIENCE

ERP Software Testing & Maintenance Trainee

July 2026 – Present

Kranti Forging

- Perform **manual and functional testing** on the company's ERP software.
- Identify, document, and report defects, then verify the fixes.
- Verify business workflows end to end and help maintain the software so daily operations run smoothly.

Data Analysis Intern

July 2025

IBM SkillsBuild

- Analysed and validated datasets in **Excel**.
- Wrote **SQL** queries to explore, check, and summarise data.

FREELANCE WEB DEVELOPMENT

Freelance Full-Stack Web Developer

2026 – Present

Self-employed · Remote

- Deliver responsive business websites and web applications for clients, from first requirements to launch and support.
- Build with **React**, **Next.js**, **Node.js**, and **PostgreSQL**, use AI tools to plan, build, and test faster, and add AI features such as chatbots and automatic product descriptions.
- Test every delivery on real phones and browsers before launch, so clients receive a site that works from day one.
- Services include business websites, e-commerce stores, admin dashboards & CMS, AI chatbots, API integration, website & ERP testing, hosting & deployment, and SEO & Google Business setup.

Customer Website – Motor Repair & Electrical Services

Client Project

Website: <https://motor-repair12.netlify.app/>

- Developed a responsive business website for a customer in the electric motor repair and rewinding industry.
- Implemented service, gallery, light decoration, reviews, FAQ, contact, and online repair booking sections with **WhatsApp integration**.
- Created a modern, mobile-friendly interface to present business services, products, and customer information professionally.

EXTRACURRICULAR ACTIVITIES

Softball – National Level Certificate

I played for Gujarat Technological University and learned to master basic skills, understand game strategies, and develop teamwork and sportsmanship from the game of softball.
