OBJECTIVE

Recently completed a Bachelor of Engineering (B.E.) in Computer Science & Engineering with practical experience in **Software Testing, ERP Software Testing, and Data Analysis**. Currently working with ERP software, where I am involved in **Manual Testing, functional testing, identifying and reporting defects, verifying business workflows, and maintaining the software** to ensure smooth and reliable operations.

I have experience working with **Excel and SQL** for data analysis and validation, along with hands-on experience in testing web-based applications and checking responsive functionality. I am also exploring **Automation Testing** to expand my testing capabilities. I am detail-oriented, proactive, and eager to continuously improve my technical and analytical skills while contributing to the delivery, maintenance, and quality of reliable software solutions.

EDUCATION

Bachelor of Engineering - Computer Engineering

Gujarat Technological University (2022 – 2026)

CGPA: 7.93 /10.00

Class XII - Science

Pramukh Swami Vidyalaya, Salangpur (2021 – 2022)

Grade: C1 | Score: 55.50 %

Class X

Pramukh Swami Vidyalaya, Salangpur (2019 – 2020)

Grade: B2 | Score: 65.83 %

PROJECTS

Personal Portfolio Website

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase skills, projects, education, and contact details.
- Created multiple sections including About Me, Projects, Skills, Resume, and Contact with easy navigation and mobile-friendly design.
- Integrated GitHub, LinkedIn, and resume download links to provide a professional online presence and improve accessibility for recruiters.

e-commerce website

- Developed a responsive e-commerce website using HTML, CSS, JavaScript, and MySQL, enabling users to browse products and shop online efficiently.
- Implemented product categories, search functionality, shopping cart management, and order processing to enhance the user experience.
- Highlighted features: responsive design, product filtering, secure database integration, and user-friendly navigation.

QuickBite – Online Food Ordering Web Application

- Developed a responsive food ordering application using **HTML5, CSS3, JavaScript, and MySQL** with restaurant browsing, cart, checkout, and order tracking features.
- Performed **functional, UI, responsive, and regression testing**, created test cases, and identified application defects.
- Validated database data using **MySQL** and performed re-testing to verify bug fixes and ensure reliable application functionality.

TECHNICAL SKILL

Languages : HTML, CSS, JavaScript, Python(Basic)

Databases : MYSQL

Testing : Manual Testing

Dev Tools : VSCode, IntelliJ idea, Oracal Database, Jira

Other : AWS(Basic) , Lunix(Basic), API

EXPERIENCE

Data Analysis Internship

IBM – SkillsBuilds

July 2025 – July 2025

ERP Software Testing & Maintenance Training

Kranti Froging

July 2026 – Present

Freelance Web Development

Customer Website – Motor Repair & Electrical Services

Freelance Project

Website: <https://motor-repair12.netlify.app/>

- Developed a responsive business website for a customer in the electric motor repair and rewinding industry.
- Implemented service, gallery, light decoration, reviews, FAQ, contact, and repair booking sections with WhatsApp integration.
- Created a modern, mobile-friendly interface to present business services, products, and customer information professionally.

Extracurricular Activities

Softball National level certificate

I played for Gujarat Technological University and learned to master basic skills, understand game strategies, and develop teamwork and sportsmanship from the game of softball.
